

## **A Cruise is a Great Deal**

A cruise is an opportunity to relax and enjoy being taken care of. You can take in the warm sun on a beach, devour amazing food, be entertained without out driving very far, and have time alone away from the noise of everyday life. Going on a cruise is becoming easier for nearly everyone to afford and it can be enjoyed any time of the year.

What's so Great about a Cruise?

If you choose a cruise for your vacation you can get the best deal for your money. This is true for many reasons. You can visit multiple places without having to pack and unpack constantly. The best cruise lasts about seven days. Any shorter and you feel like it is over before you've fully relaxed. Any longer and you get home sick. Seven days is plenty of time to visit about three different places, while having time to just hang out and enjoy the atmosphere.

If you get one of the cruise packages, you can get everything inclusive. This means that for one price you get lodging, great cuisine, and plenty of entertainment. This is probably the best way to relax because you aren't worrying about sticking to a budget. Instead you can eat all that you want and do nearly all the activities. A cruise will typically have food available 24 hours a day. This is perfect if you are up late enjoying the moonlight or engaging in some entertainment during normal eating times.

With any cruise liner that you use, you can find entertainment and food for all age groups. So you don't have to worry about whether you and your kids will be able to find things you enjoy. There are live shows, dancing, late night movies, a piano bar, games,

and much more. It will be nearly impossible to take part in all the activities going on because you will be so busy enjoying yourself. On a cruise you will also find an onboard chronicle that you will want to have handy to see when all the activities occur and what they entail. The cruise may have the chronicle delivered to your cabin door or maybe you'll need to go to the front desk for a copy.

The food is so amazing you'll have a hard time resisting it. So if you feel like you need to keep in shape you can spend time in the fully-equipped gym that will usually have a fitness instructor available to give you some pointers.

If you prefer to just relax during the cruise, you can take part in the onboard spa. Here you'll enjoy massages by professionals that can really help you take your mind off all the worries from back home. There is also a beauty salon available on many cruises where you can get all spruced up for a fancy evening in the dining room. The beauty salon and spa aren't part of the all-inclusive package, so you'll want to set aside some money for it.

#### Taking Precautions to Ensure you have a good Time

The last thing you want to deal with on your relaxing trip is getting sick. So you will want to bring along some motion sickness pills, which you'll want to take a half hour before getting on the cruise. If you have a problem with pills, you can also look into getting the motion sickness band that goes on your wrist.

If you are one that usually forgets an essential at home like toothpaste, there will be a store onboard where you can get all kinds of supplies. For more information on specific cruise lines and cruise ship reviews, look online or visit a travel agent. You are sure to find one that is perfect for your preferences.
